notes

Admin

- Adds centers that have paid spot reservation
- Creates center's basic profile with the data provided by the owner at signup
- Deletes owners that don't pay rent :P

Owner

- May own more than one Center
- Edits Center's profile
 - Bio ?
 - Number of fields
 - Adds previous events in wall
- Adds new fields
 - Field data
- Permanently removes // Temporary disables fields
- Can only edit the price of the field
- Posts pictures (& comments) with details of future events

Player

- Can follow Sport Centers' accounts (like Insta) to get notified about events
- May directly search for a Center
- They may also view events in a specific sport after clicking the sport's name at home page
- Player chooses the type of field they're interested to reserve at "Reserve field" (football, tennis, basketball, volleyball)
- All centers with that type of field are shown
- After choosing the field's type, Player may filter-search a field according to its: size, min/max no. of players, price/hour, date & time
- They view the centers' profiles and after choosing the field, they reserve it (completing the reservation data)
- Reservation is completed when player clicks 'Reserve this field'

EXTRA FEATURES

 - Calculator
 - BMI
 - daily calories
 - Music ?
 - for mental health :D

BIASED

done

- Admin creates basic center profile and Owner edits it
- ★ No 'Edit field' option cuz it doesn't make sense; almost all info would be different. Simply adding a new field and deleting the previous would be better
- Wall with pictures like Instagram

thinking

- ★ Owner creates center's profile and Admin makes it viewable by players after payment
- 'Edit field' option for when one field changes its size or type (irl)
- ★ Wall with articles
